TL100

Fingerprint Lock

With Voice-guided Feature

TL100 is a fingerprint lock with voice-guided feature, which makes operation very easy and quick. It uses the mechanical anti-theft mortise with one latch and two security deadbolts, that allows users to lock the deadbolt from both indoor and outdoor. Meanwhile, TL100 has various approaches to open the door,such as with fingerprint, password, card and key; and it can be applied to either wooden door or security door. All in all, TL100 presents the advanced electromechanical technology, which provides high home security and great convenience..

Fingerprint	Password	RFID	Key	Voice Guide

Normal open	USB Host	Smart alarm	Remote Open
